Peri d for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM
THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. Claims 10-18 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 04/01/2004.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: the reference number such as 300, 310, 202' and 204' disclose in the specification in pages 9 and 10 are not shown in Fig. 3. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

3. The disclosure is objected to because of the following informalities: there is a missing text on page 8.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2874

3. Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shahid (U.S. Patent 5,287,426).

Shahid discloses a method for producing an optical fiber connectors comprising forming v-grooves in two platforms (18, 19) made of material such as silicon (see column 3 line 10), placing fibers and bonding the platforms together with an adhesive (see column 3 line 4, lines 23-33) and cutting the bonded platforms resulting a pair of same optical connectors (couplers) (see column 3 line 65 to column 4 line 17). Shahid discloses stripping the coating on the optical fiber prior to applying the platforms (see column 3 lines 30-33). Shahid does not teach that the couplers are polarization maintaining couplers. Polarization maintaining fibers are not sensitive to environmental factors and use of polarization maintaining fibers are known in the art to provide less distortion in the optical transmission. It would have been obvious to one having ordinary skill in the art at the time the invention was made to use polarization maintaining fibers in Shahid for better optical transmission and thus providing the polarization maintaining couplers.
